Vasco da Gama, Goa | [+91-7709167968](tel:+91-7709167968) | ankithbinagekar2002@gmail.com | <https://linkedin.com/in/ankithbinagekar> | <https://github.com/AnkithBinagekar>

SUMMARY

AI & Full-Stack Developer with hands-on experience building and deploying AI-powered and cloud-native applications using Python, FastAPI, React, Docker, AWS and Microsoft Azure. Experienced in Generative AI, RAG pipelines, LangGraph, CrewAI, REST APIs, PostgreSQL, and cloud deployments. Passionate about solving real-world engineering problems and seeking Software Engineer, Backend Engineer, AI Engineer, or Full-Stack Developer opportunities.

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, Java, SQL, C++, HTML/CSS

Frontend: React.js, Tailwind CSS, Responsive UI Design, State Management, REST API Integration

Backend: FastAPI, Node.js, Express.js, REST APIs, PHP

Cloud & DevOps: AWS (EC2, S3, API Gateway), Microsoft Azure (Basics), Docker, Git, tmux, Vercel, Render, Postman

Databases: PostgreSQL, MongoDB, MySQL

AI/ML: NLP (TF-IDF, SBERT), CrewAI, LangGraph, RAG Pipelines, ChromaDB, OCR, Generative AI APIs

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Mevreon.ai

AI & Full-Stack Developer Intern

Jul 2025 – Present

Remote (Part-Time)

- Migrated 3 AI healthcare proof-of-concepts from Streamlit to React and FastAPI architectures, establishing scalable medical imaging and oncology workflows.
- Developed containerized backend services on AWS EC2 for inference pipelines, utilizing Docker and MONAI SegResNet to process 4-modality MRI datasets.
- Improved deployment reliability and stable frontend integration by migrating from ngrok to an AWS API Gateway and Elastic IP infrastructure.
- Built 10+ interactive dashboards for patient analytics and optimized MRI slice visualization by filtering 150+ generated slices down to 60 clinically relevant outputs.

The Grit City

Web Developer Intern

Jul 2024 – Aug 2024

Panjim, Goa

- Created and customized a functional website prototype using Wix, contributing to wireframing, CMS management, SEO improvements, and content workflows for student and company engagement.

Hexcoderz

UI/UX & Web Intern

Sep 2021 – Nov 2021

Vasco da Gama, Goa

- Developed “OverClocked PCs,” a web-based computer store mini-project using HTML, CSS, JavaScript, PHP, and MySQL with product browsing and PC configuration workflows.

PROJECTS

AI-Based Resume Analyzer | [GitHub](#) | [Live Demo](#) | *React, FastAPI, Python, SBERT, ChromaDB*

- Built an AI-powered ATS platform using NLP and ML pipelines to evaluate and rank resumes against job descriptions.
- Implemented layout-aware PDF parsing and OCR pipelines (PyMuPDF, Tesseract, Groq LLMs) to extract insights from scanned documents.
- Integrated RAG (ChromaDB, Groq) and deployed the JWT-secured platform across AWS EC2, Render, and Vercel.

Multi-Agent Research Assistant | [GitHub](#) | *Python, CrewAI, LangGraph, Ollama*

- Developed a CrewAI and LangGraph Python backend to coordinate multi-step research workflows.
- Implemented local LLM inference using Ollama for context-aware research generation.

LivingLink (Society Management System) | [GitHub](#) | *React, Node.js, MongoDB*

- Developed a MERN application digitizing residential operations, implementing REST APIs for bookings, payments, and maintenance.
- Designed JWT-based RBAC and deployed the decoupled architecture using Vercel, Render, and MongoDB Atlas.

EDUCATION

Padre Conceicao College of Engineering

Bachelor of Engineering in Information Technology

Goa, India

Jul 2026

Agnel Polytechnic

Diploma in Computer Engineering

Goa, India

2019 – 2022
